Špeciálne hnojivo pre extenzívnu zelenú strechu

# Ultra Green

Ultra Green je špeciálne hnojivo vytvorené pre extenzívne zelené strechy na hnojenie rozchodníkov.

Ultra Green multi-component, granular special fertilizer for use on sedums in the form of shoots and mats on green roofs.

Ultra Green ingredients are very well soluble in water and easily accessible to plants. Fertilizer significantly improves sedums rooting, allows their proper development and increases their resistance to drought and frost.

Available in 3 kg and 5 kg packs.
